BRAIN RESEARCH

VOL. 454 NO. 1/2 **CONTENTS** **28 JUNE 1988**

Research Reports

Quantitative correlation between tetanus-induced decreases in extracellular calcium and LTP (BRE 13697)
B.P.C. Melchers, C.M.A. Pennartz, W.J. Wadman and F.H. Lopes da Silva (The Netherlands) 1

Neuronal and endothelial sites of acetylcholine synthesis and release associated with microvessels in rat cerebral cortex: ultrastructural and neurochemical studies (BRE 13698)
S.P. Arnerić, M.A. Honig, T.A. Milner, S. Greco, C. Iadecola and D.J. Reis (U.S.A.) 11

Electrophysiological determination of the axonal projections of single dorsal respiratory group neurons to the cervical spinal cord of cat (BRE 13699)
T.E. Dick, F. Viana and A.J. Berger (U.S.A.) 31

Specific effects of punishment on biogenic monoamine turnover in discrete rat brain regions (BRE 13700)
T. Miyauchi, S.I. Dworkin, C. Co and J.E. Smith (U.S.A.) 40

Generalized seizures deplete brain energy reserves in normoxemic newborn monkeys (BRE 13701)
D.G. Fujikawa, R.C. Vannucci, B.E. Dwyer and C.G. Wasterlain (U.S.A.) 51

Diurnal alterations in retinal tyrosine level and dopamine turnover in diabetic rats (BRE 13702)
C.J. Gibson (Canada) 60

Morphology of ganglion cells which project to the dorsal lateral geniculate and superior colliculus in the ground squirrel (BRE 13703)
N. Lugo-Garcia and E. Kicliter (Puerto Rico) 67

Quantitative autoradiography of serotonin uptake sites in rat brain using [^{3}H]cyanoimipramine (BRE 13704)
G.B. Kovachich, C.E. Aronson, D.J. Brunswick and A. Frazer (U.S.A.) 78

Properties of feline thalamic neurons activated by stimulation of the middle meningeal artery and sagittal sinus (BRE 13706)
K.D. Davis and J.O. Dostrovsky (Canada) 89

CCK-A receptors in the rat interpeduncular nucleus: evidence for a presynaptic location (BRE 13707)
D.R. Hill, T.M. Shaw, C.T. Dourish and G.N. Woodruff (U.K.) 101

Effects of kainic acid lesions in lateral geniculate nucleus: activity dependence of retrograde axonal transport of fluorescent dyes (BRE 13708)
W.R. Woodward and B.M. Coull (U.S.A.) 106

The human accessory optic system (BRE 13709)
C.A. Fredericks, R.A. Giolli, R.H.I. Blanks and A.A. Sadun (U.S.A.) 116

Electrophysiological proterties of paraventriculo-spinal neurones in the rat (BRE 13710)
T.A. Lovick and J.H. Coote (U.K.) 123

Pharmacological analysis of the magnocellular red nucleus during classical conditioning of the rabbit nictitating membrane response (BRE 13711)
D.A. Haley, R.F. Thompson and J. Madden IV (U.S.A.) 131

Age-related decrements in the muscarinic enhancement of K^+-evoked release of endogenous striatal dopamine: an indicator of altered cholinergic–dopaminergic reciprocal inhibitory control in senescence (BRE 13712)
J.A. Joseph, T.K. Dalton and W.A. Hunt (U.S.A.) 140

Alterations in muscarinic control of striatal dopamine autoreceptors in senescence: a deficit at the ligand–muscarinic receptor interface? (BRE 13713)
J.A. Joseph, T.K. Dalton, G.S. Roth and W.A. Hunt (U.S.A.) 149

Developmental aspects of benzodiazepine receptors and GABA-gated chloride channels in primary cultures of spinal cord neurons (BRE 13715)
A.K. Mehta and M.K. Ticku (U.S.A.) 156

Identification and quantification of kynurenic acid in human brain tissue (BRE 13716)
W.A. Turski, M. Nakamura, W.P. Todd, B.K. Carpenter, W.O. Whetsell Jr. and R. Schwarcz (U.S.A.) 164

Determination of rat cerebral cortical blood volume changes by capillary mean transit time analysis during hypoxia, hypercapnia and hyperventilation (BRE 13717)
R.P. Shockley and J.C. LaManna (U.S.A.) 170

Blind-ended semipermeable guidance channels support peripheral nerve regeneration in the absence of a distal nerve stump (BRE 13714)
P. Aebischer, V. Guénard, S.R. Winn, R.F. Valentini and P.M. Galletti (U.S.A.) 179

(contents continued on pp. 411/412)

Cited in Biological Abstracts (BIOSIS) — Chem. Abstracts — Index Medicus — Current Contents (Life Sci.) — Excerpta Medica (EMBASE) — Psychological Abstracts (PsycINFO) — PASCAL M

(contents continued from backcover)

The release of pituitary LH and sprouting of LH-releasing hormone (LHRH)-containing neurons after anterior hypothalamic deafferentation (BRE 13718)
C.P. Phelps and S. Saporta (U.S.A.) 188

Effect of monoamine oxidase inhibition on the regional cerebral blood flow response to circulating noradrenaline (BRE 13719)
F. Lasbennes, P. Lacombe and J. Seylaz (France) 205

Dose–response relationship between light irradiance and the suppression of plasma melatonin in human volunteers (BRE 13720)
G.C. Brainard, A.J. Lewy, M. Menaker, R.H. Fredrickson, L.S. Miller, R.G. Weleber, V. Cassone and D. Hudson (U.S.A.) 212

Serial position curves for item (spatial location) information: role of the dorsal hippocampal formation and medial septum (BRE 13722)
R.P. Kesner, K. Crutcher and D.R. Beers (U.S.A.) 219

The influence of anesthesia upon binocular processes controlling the recordability of X- and Y-cells in the lateral geniculate nucleus of the cat (BRE 13723)
C.E. Schroeder, W.L. Salinger and W. Guido (U.S.A.) 227

Mortality and histological findings of the brain during and after cerebral ischemia in male and female spontaneously hypertensive rats (BRE 13725)
S. Sadoshima, U. Nakatomi, K. Fujii, H. Ooboshi, T. Ishitsuka, J. Ogata and M. Fujishima (Japan) 238

Stationary and non-stationary occurrences of miniature end plate potentials are well described as stationary and non-stationary Poisson processes in the mollusc *Navanax inermis* (BRE 13727)
M.S. Cappell, D.C. Spray and M.V.L. Bennett (U.S.A.) 244

The role of the pyriform cortex in the generation of interictal spikes in the kindled preparation (BRE 13728)
R.J. Racine, M. Mosher and E.W. Kairiss (Canada) 251

The effects of various lesions and knife-cuts on septal and amygdala kindling in the rat (BRE 13729)
R.J. Racine, G. Paxinos, J.M. Mosher and E.W. Kairiss (Canada, Australia) 264

Morphometric immunochemical analysis of neurons in the nucleus basalis of Meynert in Alzheimer's disease (BRE 13730)
S.J. Allen, D. Dawbarn and G.K. Wilcock (U.K.) 275

Stimulated limbic and striatal dopamine release measured by fast cyclic voltammetry: anatomical, electrochemical and pharmacological characterisation (BRE 13731)
J.A. Stamford, Z.L. Kruk and J. Millar (U.K.) 282

Quinolinic acid-induced seizures, but not nerve cell death, are associated with extracellular Ca^{2+} decrease assessed in the hippocampus by brain dialysis (BRE 13732)
A. Vezzani, H.Q. Wu, P. Angelico, M.A. Stasi and R. Samanin (Italy) 289

Cholinotoxicity of the ethylcholine aziridinium ion in primary cultures from rat central nervous system (BRE 13733)
A. Amir, Z. Pittel, A. Shahar, A. Fisher and E. Heldman (Israel) 298

Facilitation of focal cobalt-induced epilepsy after lesions of the noradrenergic locus coeruleus system (BRE 13734)
S. Trottier, O. Lindvall, P. Chauvel and A. Björklund (France, Sweden) 308

Increased transfer of ^{45}Ca into brain and cerebrospinal fluid from plasma during chronic hypocalcemia in rats (BRE 13735)
V.A. Murphy and S.I. Rapoport (U.S.A.) 315

Thermal sensitivity of neurons in a rostral part of the rat solitary tract nucleus (BRE 13736)
H. Ogawa, T. Hayama and Y. Yamashita (Japan) 321

Neuromuscular block by verapamil and diltiazem and inhibition of acetylcholine release (BRE 13737)
C.C. Chang, S.-O. Lin, S.J. Hong and L.C. Chiou (Taiwan) 332

The twitcher mouse: accumulation of galactosylspingosine and pathology of the sciatic nerve (BRE 13738)
K. Tanaka, H. Nagara, T. Kobayashi and I. Goto (Japan) 340

Hippocampal but not astrocyte transplants enhance recovery on a forced choice alternation task after kainate lesions (BRE 13739)
J.P. Kesslak, A. Walencewicz, L. Calin, M. Nieto-Sampedro and C.W. Cotman (U.S.A.) 347

Effect of bilateral decortication on nerve growth factor content in basal nucleus and neostriatum of adult rat brain (BRE 13741)
H.P. Lorez, M. von Frankenberg, G. Weskamp and U. Otten (Switzerland) 355

Effects of interferon-α on the activity of preoptic thermosensitive neurons in tissue slices (BRE 13742)
T. Nakashima, T. Hori, K. Kuriyama and T. Matsuda (Japan) 361

Anticonvulsant effects of phencyclidine-like drugs: relation to *N*-methyl-D-aspartic acid antagonism (BRE 13743)
J.D. Leander, R.C. Rathbun and D.M. Zimmerman (U.S.A.) 368

(continued overleaf)

Short Communications

Food deprivation alters dopamine utilization in the rat prefrontal cortex and asymmetrically alters amphetamine-induced rotational behavior (BRE 22959)
J.N. Carlson, S.D. Glick, P.A. Hinds and J.L. Baird (U.S.A.) 373

SI nociceptive neurons participate in the encoding process by which monkeys perceive the intensity of noxious thermal stimulation (BRE 22967)
D.R. Kenshalo Jr., E.H. Chudler, F. Anton and R. Dubner (U.S.A.) 378

Cryopreservation of human fetal adrenal medullary cells (BRE 22968)
V. Silani, A. Pizzuti, O. Strada, A. Falini, G. Pezzoli and G. Scarlato (Italy) 383

Direct catecholaminergic projection from nucleus tractus solitarii to supraoptic nucleus (BRE 22969)
T.A. Day and J.R. Sibbald (New Zealand) 387

Amino acid and neuropeptide neurotransmitters in Huntington's disease cerebellum (BRE 22970)
M.F. Beal, K.J. Swartz, S.F. Finn, E.D. Bird and J.B. Martin (U.S.A.) 393

Spinal cord transections in fetal rats. Open intrauterine surgery with low mortality (BRE 22975)
F.C. De Beer, R.T.W.M. Thomeer, E. Lakke, J. De Vries and J. Voogd (The Netherlands) 397

Angiotensin receptors at the spinal cardiovascular loci (BRE 22978)
K.K. Pant and S. Gurtu (India) 400

The phase-shifting effects of pentobarbital on the circadian rhythm of locomotor activity in the mouse: strain differences (BRE 22980)
S. Ebihara, M. Goto and I. Oshima (Japan) 404
